MOBILE HAND WASH STATIONS

BASIX

The all new space-saving, mobile hands-free basin range.

Helps operations meet their requirements to provide hand-wash facilities for staff and customers on site—even in the smallest of areas.

OTHER BENEFITS

Manufactured in the UK with ease of use and water saving in mind.

Optional extras include **soap/sanitiser dispenser**, hanging **bin** and **towel dispenser**.

Hands-free technology improves health and safety, by removing the need for manual contact and **preventing the spread of germs by hand**.

Water saving spout

Models are hands-free operated with a water saving spray pattern spout. Complete your station by adding an optional soap/sanitiser dispenser, as pictured below.

Improve hygiene

Hand-washing is the number one prevention against the spread of viruses, bacteria and other pathogens. Good hand-washing habits can be encouraged with the right equipment installed in the correct position.

Ease of use

The reliable, easy to use time flow foot valve operated models allow mixed water to run for 8-12 seconds before automatically shutting-off. A feature that can also help to reduce unnecessary water wastage.

MODELS: **BSX-MHB-HCW-T**

BASIX MOBILE HAND WASH STATIONS

Manufacturer: Mechline Developments Limited

Designed to help operations meet their requirements to provide hand-wash facilities for staff and customers on site.

The **BSX-MHB-HCW-T** model is ideal for areas where a hot and cold water supply and waste connection are present.
